

Circle Bolt & Nut Co., Inc.

# STAYING CONNECTED

AUGUST 2017

[CIRCLEBOLT.COM](http://CIRCLEBOLT.COM)

## Focus On Customer's Ultimate Satisfaction

### CONTINUED COMMITMENT TO ISO 9001

*The Circle Bolt & Nut crew discussing the new ISO quality standards as they transition from the 2008 quality model to the 2015 standard.*

#### Fun Facts:

*Albert Einstein's general relativity theory was proven by a team of British scientists after they observed the solar eclipse of May 29, 1919.*

*The entire Continental United States could see the solar eclipse of 2017.*

*There will be another solar eclipse crossing the United States in 2024! It will track from Texas through Ohio and exit through Maine.*

Circle Bolt & Nut Co., has undertaken the effort to update their Quality Management System. We are transitioning from our current ISO 9001:2008 certification to the updated ISO 9001:2015 standard.

ISO reviews its standards every five years to establish if a revision is required to keep it current and relevant for the marketplace. ISO 9001:2015 is designed to respond to the latest trends and be compatible with other management systems such as ISO 14001.

The new version follows a new, higher level structure designed to make it easier to use in conjunction with other management system standards, with increased importance given to risk.

Sincerely,

*James J Castellino*

President & CEO
