New Pre-Packaged & Bulk Box Quantities

In order to improve our quality and standards, CBN will now be offering pre-packaged & bulk box quantity options on some of our standard items. This will allow us to better service our valued customers and continue to meet your requirements. These parts are bagged in quantities of 100, 50 or 25 depending on the size of the item. We have found that by going to pre-bagged quantities on smaller items like the ones listed below, it will not only help alleviate some of the losses during shipping, but also improve on our warehouse efficiencies.
